Rogan Trophy

This trophy is awarded each year to the club junior up to the age of 16 who has excelled in demonstrating club spirit. This is usually achieved by regularly attending and competing at club events, but more significantly, the junior should display a great attitude towards assisting with the organisation at our many varied club events.

Typically they should demonstrate enthusiasm and willingness to help in many situations. Assistance with registration, collecting controls, introducing new friends, simple course planning, mentoring are all good examples. Adopting this spirit helps to foster a successful and friendly orienteering club.

Climie Trophy

This trophy is awarded each year to the club junior up to the age of 16 who has displayed the best improvement in their overall orienteering performance. Recognition may also include their achievements in any orienteering event through their participation and by progressively attaining better results throughout the season
